Work History

2025-06 - 2026-02

Full Stack Developer

HABTECH Solution, Addis Ababa (Remote)

- Developed the **Community-Based Health Insurance (CBHI) mobile app** for the **Ethiopian Ministry of Health**, improving accessibility and management of health insurance data.
- Built the **Pfizer Vaccine Tracing System (PVTS)** used by **Pfizer International**, customizing **DHIS2** to enable accurate tracking, reporting, and monitoring across multiple modules (service delivery, microplanning, session observation, supportive supervision, headcount).
- Designed a **TypeScript DHIS2 ETL project** to manage and transform health data efficiently, and integrated the **Ethiopian calendar** to support localization ,enhance session scheduling and date handling.

2025-03 - 2025-06

Full Stack Software Developer

Scitech Valley, Addis Ababa (Onsite)

- Developed a full-stack Customer Management System (React, Node.js, Mysql,drizzle) with CRUD operations and database integration, improving workflow efficiency.
